

4034 15pcs Metric Rethreader Set

- 15-piece thread restorer kit contains the most popular metric sizes for restoring corroded, damaged or stripped threads on both internal and external threads.
- These thread chasers have a hex head and are designed to be used with standard metric sockets and wrenches.
- Thread restores are not designed to create new threads, but work to clean up damaged threads. Also included in this kit is a special thread file that can be used to restore threads on right or left hand bolts and studs.
- File has a removable vinyl handle. Use with a light oil for best results.
- Contents: Tap and Die sizes: 6×1.0 / 8×1.25 / 10×1.25 / 10×1.50 / 12×1.25 / 12×1.75 / 12×1.5 mm
- File thread pitch sizes: 0.75 / 1.00 / 1.25 / 1.50 / 1.75 / 2.00 / 2.50 / 3.00 mm
