

9238 Disc Lather Machine

- Eliminate the assembly error when disassembling and assembling the brake disc.
- On the car repair without the need to disassembling the brake disc.
- Save labour and time
- Convenient for the technicians to compare the run out tolerance before and after cutting brake disc.
- Max Disc Diameter: 500mm

- Made In China

Product specification:

Model name: AM-983

Working height (min / max): 0.78 / 1.2M

Drive Speed : 150rpm

Motor Power: 750W

Electrical Specification: 220v / 50hz

Ambient temperature range: -30 ~ -60 degree

Maximum diameter of brake disc: 500mm

Thickness of brake disc: 6 ~ 40mm

Cutting depth per knob: 0.005 ~ 0.015mm

Cutting precision: <0.00 – 0.003mm
