

9340 Heavy Duty Large Inner Tie Rod Wrench (Max 55mm)

- Works to remove multiple inner tie rods of cars, light trucks, and SUV's, including the hex tubes, round tubes with flats, and round tubes with no flats, without having to the completely remove the tie rod assembly.
- Accepts larger tie rod tubes than most other similarly designed tools
- Fixed position rings provide added strength and durability
- Designed to use in limited access areas
- Patented, force-multiplying cam design
- Range: 25mm ~ 55mm
- Made In Taiwan
